ANGGIN MEGANTARA

Keniten, Taman Martani, Kalasan, Sleman, Yogyakarta | 0851 7234 2403 | angginmegantara@gmail.com

Experienced Frontend Developer with 5 years of expertise in designing UI/UX for websites and mobile applications. Proficient in various programming languages such as HTML/CSS/Javascript, Bootstraps/Tailwind CSS, React JS, Vue JS, Next JS, Nuxt JS, and PHP to create efficient and effective digital solutions.

WORK EXPERIENCE

Mar 2026 – Now

Frontend Developer | Ministry of Communications and Digital Affairs | Yogyakarta

Maintaining various Yogyakarta city government websites using modern frameworks (React, Next.js, Vue, and Nuxt.js) to ensure seamless performance and reliability.

Sept 2024 – Feb 2026

Intermediate Frontend Developer | PT Netindo Solution Group | Yogyakarta

I was responsible for developing user interfaces based on UI/UX designs, performing slicing, and integrating APIs from the backend team. The technologies I used include Vue.js, Nuxt.js, Tailwind/Bootstrap, Shadcn UI, and native Javascript.

Feb 2024 – May 2024

Frontend Developer | PT Pasifik Cipta Solusi | Yogyakarta

As a freelance Frontend Developer, I developed user interfaces based on UI/UX designs, performed slicing, and integrated APIs provided by the backend team. I also fixed bugs identified by the tester team. Technologies used included React.js, MUI, Rest API, CSS, and JavaScript, ensuring applications were responsive.

Nov 2018 – Nov 2023

Web Designer | PT JMC INDONESIA | Yogyakarta

My responsibilities included designing application and website interfaces from Figma Mockups and converting them into Prototypes using HTML, PHP Native, CSS, and JavaScript. I ensured responsive design across all devices, participated in application testing, and fixed bugs identified by the tester team.

Jun 2018 – Aug 2018

Frontend Engineer | PT Baracipta Esa Engineering | Yogyakarta

Developed and maintained responsive websites as a Freelance Frontend Developer, utilizing Laravel, Bootstrap, and JavaScript..

Jun 2017 – Jun 2018

Web Developer | Webane Indonesia | Yogyakarta

Developed websites utilizing CodeIgniter (CI), PHP, and Vanilla JavaScript, and implemented custom solutions using WordPress.
